

Rhenus Logistics B.V.:
Your hub for steel &
metal products

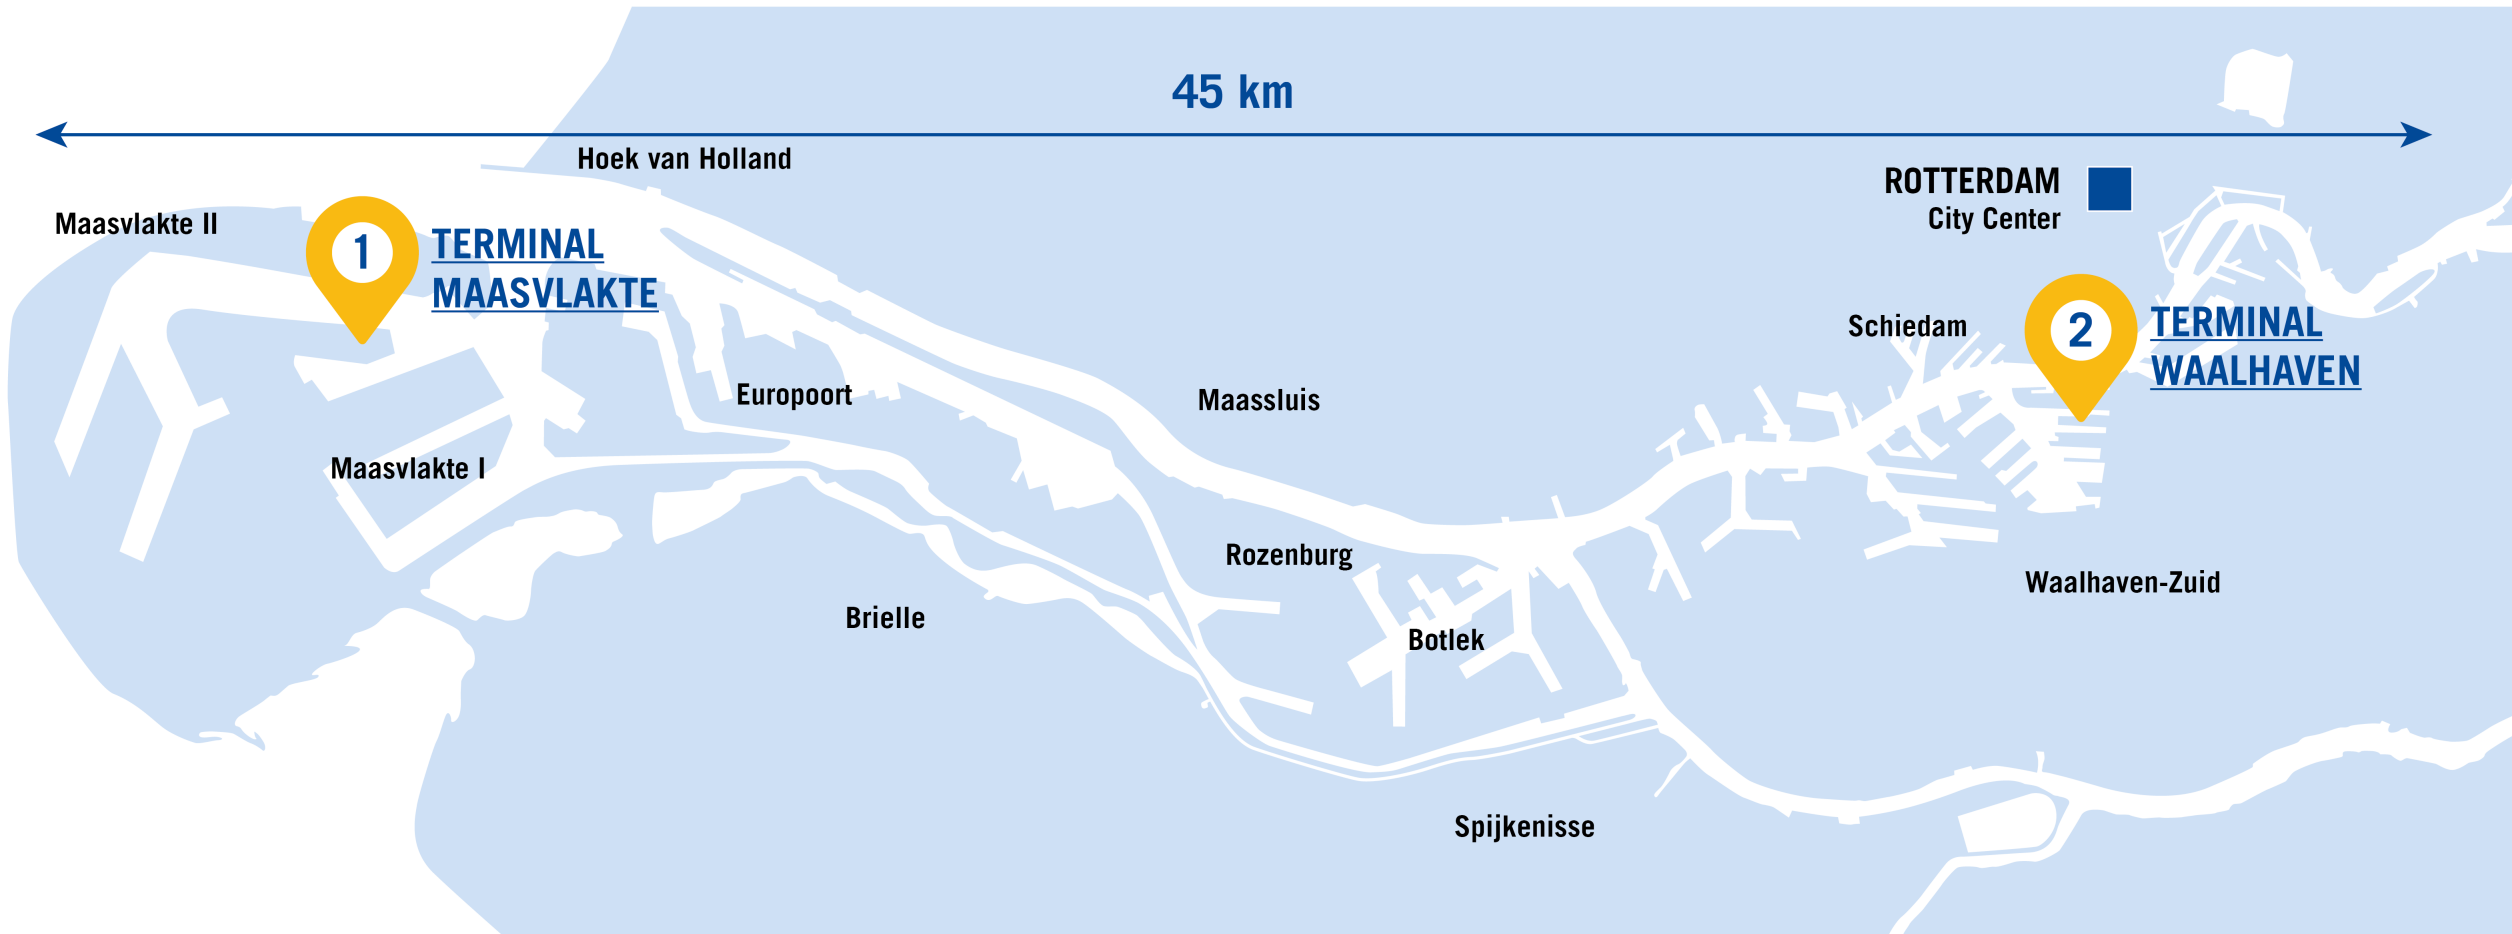

RHENUS LOGISTICS B.V. AT A GLANCE

Although part of the international Rhenus Logistics group of companies, Rhenus Logistics B.V. in Rotterdam is an independent breakbulk terminal operator (stevedore and warehouses).

We work for general & project cargo forwarders, breakbulk & heavy lift shipping companies, steel & metal traders, OEM producers & manufacturers, EPC(I) contractors and on- and offshore oil & gas and renewable energy companies.

ANNUAL THROUGHPUT:

- 500.000 MT of steel
- 500.000 MT of metals
- 150.000 MT other breakbulk cargoes
- > 30.000 TEU

RHENUS LOGISTICS B.V. TERMINALS IN THE PORT OF ROTTERDAM

Our two deep sea terminals with heavy cranes function as a cargo hub for the handling and storage of all kinds of commodities such as steel, aluminium, metals, containers, forest products, (offshore) equipment and heavy lift & project cargoes.
